 India

Career Objective

Motivated and detail-oriented software developer with 3+ years of experience in designing, developing, and implementing software solutions. Seeking to leverage my skills in programming, problem-solving, and project management to contribute to innovative projects and drive technological advancements in a dynamic and growth-oriented organization.

Work Experience

Quadance Technologies Pvt. Ltd. Software Engineer MAR 2025 - PRESENT

- Architected scalable REST APIs using Python (Django, FastAPI, Flask), integrating ReactJS frontend, WebSockets, Celery/RabbitMQ workers, and Redis caching.
- Developed AI-powered data extraction and classification pipelines using LLM prompting, deployed with Docker.

GSA Tech World Pvt. Ltd. Python Full Stack Developer JUN 2024 - MAR 2025

- Developed and maintained web applications using Python, Django, Firebase, HTML, CSS, and JavaScript.
- Utilizing PostgreSQL for database management and Firebase for authentication and real-time database interactions

Coding Crisp Software Developer JAN 2023 - JUN 2024

- Developed and maintained web applications using Python, Django, HTML, CSS, and JavaScript.
- Collaborated with team members to design and implement new features, enhancing user experience and functionality.

Skills

- | | | |
|-----------|-----------------|-----------|
| • Python | • PostgreSQL | • FastApi |
| • Django | • WebSocket | • Docker |
| • ReactJs | • Redis caching | • Celery |

Projects

KYC

TEAM LEAD | NOV 2025 - FEB 2026

Led development of a KYC document processing system using FastAPI, ReactJS, PostgreSQL, and Docker. Implemented Celery Chord workflows for parallel task processing. Built OCR pipelines for keyword classification and data masking. Integrated LLM-based classification and extraction for automated document analysis, optimizing performance with async APIs and Redis caching.

Curevive Application

TEAM MEMBER | AUG - NOV 2024

Curevive is a hospital management application designed to streamline patient care and enhance operational efficiency. The project focuses on features such as appointment scheduling, patient record management, and real-time communication between healthcare providers, ensuring a seamless experience for both staff and patients. Also Managed Dynamic Registration Field.

Printers Application

TEAM LEAD | JUN - AUG 2024

Developed a robust Printers Application focused on the efficient location tracking of agents and comprehensive analysis of supply reports. The application aimed to streamline the management of field agents by accurately tracking their locations in real-time. Utilized a technology stack including Python, Django, and PostgreSQL to ensure data integration and reliable performance.

Education

BE in Computer Science and Engineering

DMI College of Engineering (ANNA UNIVERSITY)	8.22 CGPA	2019 - 2023
--	-----------	-------------

HSC

Maharishi Vidya Mandir Higher Secondary School	65.17%	2018- 2019
--	--------	------------

AISSCE

Maharishi Vidya Mandir Senior Secondary School	8.2 CGPA	2016- 2017
--	----------	------------
